Name _____

Balance Tracker Answer Key

1. $1,930.00
2. $1,843.55
3. $1,718.95
4. $1,934.70
5. $1,834.70
6. $1,764.71
7. $1,807.21
8. $1,799.21

Teacher's Guide

- Quick implementation: Review that deposits increase the balance and purchases, payments, withdrawals, and fees decrease it. Students should process transactions from 1 through 8 without skipping ahead.
- Differentiation: Let students mark each transaction with a plus or minus sign before calculating. Provide a calculator when computation is not the primary focus.
- Engagement: Present the activity as an online banking challenge in which students must keep the account balance accurate after every posted transaction.
- Extension: Have students add two realistic transactions after September 15 and calculate the resulting balances.
