

Structure Detectives Answer Key

1. PS
2. D
3. CC
4. CE

Teacher's Guide

- Review clue words for each structure. **Compare/contrast** often includes words like however or both. **Cause/effect** may include because or as a result. **Problem/solution** presents an issue followed by a fix. **Description** paints a picture with sensory or spatial details.
- Have students underline the phrases that helped them choose the structure.
- Support developing readers by giving them a chart of structure definitions and example sentences.
- Encourage advanced students to rewrite one passage using a different structure while keeping the topic the same.
- For engagement, turn the activity into a timed challenge where partners justify their choices aloud before recording answers.
