### Teacher's Guide

**Purpose:** Strengthen student understanding of key Pacific Ocean facts while practicing accuracy, correction skills, and critical thinking.

### Instructional Tips

- Review common misconceptions about oceans before the activity.
- Encourage students to underline the part of a false sentence that needs fixing.
- Model how to turn a false statement into a clear correct one.

### Engagement Ideas

- Display a Pacific Ocean map and let students point out examples mentioned in statements.
- Have students guess true or false before reading each sentence and then check with the passage or map.
