Teacher's Guide

Purpose: Reinforce key knowledge about the Pacific Ocean while practicing multiple choice question skills for grades 3 to 6.

Instructional Tips

- Review important terms before beginning, such as **Ring of Fire**, **islands**, **climate zones**, and **continents**.
- Encourage students to cross out answers they know are incorrect to strengthen test taking habits.
- Read each question aloud for students who need audio support.

Differentiation

- For emerging learners, provide a labeled world map to reference during the activity.
- Challenge advanced students to write one new multiple choice question about the Pacific using their own knowledge.
- Allow partner work for students who need collaborative problem solving.

Engagement Ideas

- Begin with a short discussion asking students what they already know about the Pacific Ocean.
- Show a simple map and ask students to predict which continents or countries touch the Pacific.
