Teacher Notes / Guide

- This activity helps students **differentiate between present continuous and past continuous**.
- The “time travel” theme makes the transformation process fun and memorable.
- Common student error: forgetting to switch both the auxiliary verb (*is/are* → *was/were*) **and** keep the -ing form of the main verb.
- Extension idea: After rewriting, ask students to create their own “time travel” sentences (one in present continuous, then rewrite in past continuous).
