### Teacher's Guide

- Highlight the purpose of **ph** making the f sound and how it appears in many academic and content vocabulary words.
- Encourage students to reread definitions and look for clue words to match meanings with the correct **ph-word**.
- For differentiation, reduce the number of choices or provide picture cues. For advanced students, add challenge words like **symphony** or **sphinx**.
- For extension, have students write a short paragraph using three of the ph-words or create illustrated definition cards to reinforce vocabulary understanding.
