

Name _____

Dolphin Communication Answer Key

1. By using clicks, whistles, and body movements.
2. An underwater microphone connected to a phone or computer.
3. They create a graph of the sounds.
4. Important information for the group.

Teacher's Guide

- Point out the **ph** words in the passage to reinforce how often this digraph appears in informational texts.
- Encourage students to highlight **ph** words before answering the comprehension questions for added phonics focus.
- For differentiation, read the passage aloud for emerging readers or provide a vocabulary box with the ph words used.
- For extension, have students write their own two-sentence informational fact using at least one **ph-word**, or challenge them to create a simple graph about an everyday topic to mirror the passage.
