

Name \_\_\_\_\_

## Ph Analogy Challenge Answer Key

1. graph
2. phantom
3. phrase
4. trophy
5. photo
6. phone
7. alphabet
8. dolphin

### Teacher's Guide

- Review how analogies work by explaining that students must find the relationship in the first pair to solve the second pair.
- Encourage students to read each analogy aloud and identify key clue words like picture, letters, call, or award.
- For differentiation, start with a guided example or allow students to use the word bank more freely before narrowing choices.
- For extension, have students create their own analogy using a new **ph-word**, or turn two analogies into short illustrated vocabulary cards to reinforce meaning.
