1. D. sound
2. G. light
3. F. image
4. A. small
5. E. earth
6. H. life
7. F. image
8. C. stone

### Teacher's Guide

- Review common Greek roots that appear in **ph** words to strengthen vocabulary and cross-curricular literacy.
- Encourage students to break each word into parts and think about familiar roots such as bio, geo, micro, and graph.
- For differentiation, provide root meaning cards or allow students to use a dictionary. Challenge advanced students to find an additional ph-word for each root.
- For extension, students can write a mini word map showing the root, its meaning, an example ph-word, and an illustrated definition to reinforce understanding.
