

Name _____

Symbol Scale Answer Key

1. 20
2. 30
3. 15
4. 25
5. Sports
6. Animals
7. 35
8. 20

Teacher's Guide

- Quick implementation: Review the key and emphasize that each X represents 5 books, not 1 book.
- Differentiation: Have students skip-count by 5 for each row before answering the questions.
- Engagement: Ask students to cover the key and recall the value of each symbol after several practice questions.
- Extension: Have students find the total number of books represented by the entire picture graph.
