

Name _____

Graph Pair Up Answer Key

1. B
2. A
3. E
4. C
5. F
6. D

Teacher's Guide

- Quick implementation: Review the key first. Have students convert each row of symbols into numbers before matching.
- Differentiation: Let students write the value under each picture graph before choosing a match.
- Engagement: Challenge students to find a matching pair without checking all three categories, then verify using the remaining categories.
- Extension: Have students create a seventh data set and draw its matching picture graph.
