7. G, 80%
8. D, 10%
9. H, 30%
10. E, 70%

Teacher's Guide

- Quick implementation: Review that a whole pie represents 1 whole, or 100%, before students begin.
- Differentiation: Encourage students to convert each fraction to a decimal first, then multiply by 100.
- Engagement: Have students picture how much of a pie each fraction would cover before choosing a percentage.
- Extension: Ask students to choose three matches and sketch how each portion would appear as a sector of a pie graph.
