

Name _____

Pollution Prevention Brainstorm

Directions: Pollution can be reduced if people take action in their daily lives. For each category below (Home, School, Community), brainstorm **at least three ways** to help prevent pollution. Be specific in your answers.

Part A - At Home

List three actions your family could take to reduce pollution.

1. _____
2. _____
3. _____

Part B - At School

List three actions students and teachers could take at school to reduce pollution.

1. _____
2. _____
3. _____

Part C - In the Community

List three actions people in your neighborhood, town, or city could take to reduce pollution.

1. _____
2. _____
3. _____

Reflection Question: Why is it important for individuals, schools, and communities to all take part in reducing pollution? Write 3-4 sentences.
