Teacher's Guide

- **Objective:** Students will apply knowledge of prefixes to determine the correct word based on sentence context.
- **Differentiation Tips:**
 - Review prefix meanings before starting (re-, pre-, sub-, dis-, post-, super-, etc.).
 - Provide a prefix reference list for students needing additional support.
 - Encourage advanced learners to justify their word choices with prefix meaning explanations.
- **Engagement Ideas:**
 - Turn it into a "Prefix Challenge" game-students earn points for correct answers and creative reasoning.
 - Have students read sentences aloud dramatically and let peers vote on the best prefix word.
- **Extension Ideas:**
 - Ask students to write two original sentences using any of the prefix words from the worksheet.
 - For deeper analysis, have them break down the structure of one word (prefix + root) and explain its literal meaning.
