Teacher Notes

- **Focus Point:** This matching activity helps students link **subjects** to the correct **am/is/are + verb-ing** form.
- **Differentiation Tip:** For beginners, reduce the number of choices. For advanced students, ask them to **write full sentences** after matching.
- **Common Errors:** Students often confuse *is/are*. Encourage them to underline the subject first, then decide which auxiliary verb matches.
- **Extension Idea:** After matching, students can create a **mini-dialogue** using two of the subject-verb pairs they matched.
