Teacher Notes

- **Focus Point:** This exercise strengthens understanding of how to form **Wh-questions** in the present continuous tense: *Wh-word + am/is/are + subject + verb-ing*.
- **Differentiation Tip:** Encourage students to try multiple question words for the same sentence (e.g., "What is she reading?" vs. "Where is she reading?").
- **Common Error Alert:** Students may drop *-ing* endings or forget to invert the subject and verb ("What she is reading?" instead of "What is she reading?").
- **Extension Idea:** Have students interview a partner by creating **3 original Wh-questions** in the present continuous and recording the answers.
