Name _____

Markdown Mission Answer Key

1. $8.00
2. $16.50
3. $8.00
4. $9.00
5. $28.00
6. $24.00
7. $30.00
8. $45.00
9. $50.00
10. $36.00

Teacher's Guide

- Quick implementation: Review that a markdown is the dollar amount taken off the original selling price. Model converting one percentage to a decimal before multiplying.
- Differentiation: Provide percent-to-decimal conversions for students who need support. Allow calculators when appropriate.
- Engagement: Present the activity as preparing products for a store clearance sale. Students calculate how many dollars will be taken off each price.
- Extension: Have students subtract each dollar markdown from the original selling price to determine the sale price.
