Name _____

Price Puzzle Answer Key

1. $22.00
2. $25.00
3. $12.00
4. $60.00
5. $60.00
6. $18.00
7. $123.50
8. $105.00

Teacher's Guide

- Quick implementation: Review that selling price equals cost plus dollar markup. Explain that students may need addition or subtraction depending on which amount is missing.
- Differentiation: Have students circle the missing amount and underline the two known amounts before calculating. Allow calculators when appropriate.
- Engagement: Present the problems as incomplete price tags that students must fix before a store opens.
- Extension: Have students create two additional price puzzles, leaving a different pricing amount missing in each one.
