Name _____

Chance Connections Answer Key

1. H
2. E
3. C
4. A
5. I
6. G
7. J
8. D
9. B
10. F

Teacher's Guide

- Quick implementation: Have students calculate each probability as a fraction first, then find its equivalent fraction, decimal, percentage, or description in the answer bank.
- Differentiation: Provide a reference showing common equivalents such as 1/2 = 0.5 = 50% and 1/4 = 0.25 = 25%.
- Engagement: Have pairs compare matches and explain how they converted one probability to another form.
- Extension: Ask students to rewrite three answers in all three numerical forms: fraction, decimal, and percentage.
