Same Question, Different Outfit

AI doesn't just care *what* you ask - it cares *how* you ask it to respond. A simple change in format (list, paragraph, table, or step-by-step instructions) can totally change the way the answer looks and how useful it feels. Your job: take the same task and **rewrite it four different ways**, each one requesting a different output format.

The Task - "Give me a list of study tips."

Rewrite the Prompt in Four Formats

As a List:

As a Paragraph:

As a Table:

As Steps (like instructions):

Which format would be the **easiest for you to use** when preparing for a test?
Why?

Which format would be the **hardest for you to learn from**? Why?
