## Putting Wordy Prompts on a Slim-Down Plan

Sometimes prompts get so overloaded with words that they feel like they're running a marathon just to ask a simple question. Your mission: **take each giant, wordy prompt below and compress it into fewer than 20 words-without losing the core task.** Think of it as trimming the fat: keep the request clear and sharp, cut out the fluff.

**Wordy Prompt #1** - *"Please provide me with a carefully written, step-by-step explanation that outlines and describes in detail the process by which plants are able to convert sunlight, water, and carbon dioxide into food (specifically glucose), a process known scientifically as photosynthesis, and make sure that the explanation is clear enough for a younger student-let's say a seventh grader-to follow along without getting lost in overly technical scientific jargon that might confuse them."*

**Your Task: Compress It**

**Rewrite in fewer than 20 words:**

**Under 12 words:**

**Audience-focused (7th grader):**

**Wordy Prompt #2** - *"I would like you to write for me a thorough but easy-to-understand description that breaks down, in clear and organized sections, the key historical causes, main events, and long-lasting consequences of the American Revolution, making sure to include both the perspectives of the colonists and the British, while avoiding complicated academic jargon so that the explanation is accessible to someone who might be new to studying history or still in middle school."*

**Your Task: Compress It**

**Rewrite in fewer than 20 words:**

**Under 12 words:**

**Audience-focused (middle schooler):**
