Emergency Room for Broken Prompts

AI can't guess what you *really* mean. If you feed it a broken prompt, you'll probably get a broken answer. In this activity, you'll see four vague, unhelpful prompts. Your job: **rewrite each one in three stronger ways.** Think about how to make your new prompts:

- **More specific** (narrow the topic)
- **Clearer** (state exactly what you want)
- **Directed** (set tone, audience, format, or length)

Broken Prompt #1 - "Explain stuff about space."
