### Teacher's Guide

- Provide a quick reminder that **qu** makes the sound like in **quick** and almost always sticks together as a pair.
- Give students a verbal preview of each word before matching to support newer readers.
- For struggling learners, show real objects or simple clipart of each qu item and let them orally identify before matching.
- For extensions, have students choose two qu words and draw their own pictures or use each in a complete sentence to build vocabulary and writing fluency.
