

Name _____

Qu Blend Search Answer Key

Teacher's Guide

- Remind students that **qu** sticks together as one sound and starts many action and object words they may know.
- Model the first line by pointing out how other blends like **cr**, **st**, and **fl** look different so students learn to compare.
- For emerging readers, read each blend aloud and have them echo the sound before circling to strengthen phonemic awareness.
- For extension, have students make a quick list of real qu words they know or listen for qu words in a short read aloud to reinforce real-world application.
