### Comprehension Answers:

1. He was going on a nature walk behind his house.
2. He brought a quilt to sit on.
3. He heard a duck quack.
4. He found a shiny quill in the grass.
5. To make sure he was safe before picking up the quill.

### Teacher's Guide

- Remind students that **qu** always appears together and should be read as a single sound. Encourage them to scan each word carefully instead of circling the letter q alone.
- Read the paragraph aloud once before students begin. This supports developing readers and helps them hear the qu sound in connected text.
- For learners who need extra support, highlight the first qu word together as an example, then guide students to find others independently.
- Extend learning by asking students to write a new sentence containing one qu word from the story or challenge them to list additional qu words they know.
