## Sticker Robot Answer Key

1. A large square is drawn in the center.
2. Two small circles appear at the top of the square.
3. The square is colored blue.
4. The two circles are colored yellow.
5. A short straight line is under the circles.
6. Two long rectangles are added as arms.
7. Both arms are colored green.
8. Two small squares are drawn under the body.
9. The feet are colored red.
10. Three tiny stars appear above the robot.

The final picture shows a blue robot with yellow eyes, green arms, red feet, and three stars in the sky.

### Teacher's Guide

- Use this worksheet to strengthen **literal comprehension** and careful step-by-step following.
- For support, read each instruction aloud and model the first step.
- For extension, have students write one new instruction for a partner to follow.
- Encourage students to check off each step after finishing to build sequencing skills.
- For fast finishers, allow them to add one extra detail and explain what they added in a full sentence.
