Customer Review Proof Answer Key

Sample correct responses:

1. Partially supported. The spicy garlic ramen suggests spice, but other items do not show spicy clues.
2. The menu includes vegetable udon and seaweed salad, which are meat free.
3. The claim is not fully supported because several items contain no meat.
4. The review is weakened by frozen lychee cups, which suggest a light dessert.
5. Pickled cucumber slaw, seaweed salad, and vegetable udon weaken the claim.
6. Student responses may vary, but answers must cite at least two accurate menu items.

Teacher's Guide

- This worksheet builds **menu comprehension**, **claim evaluation**, and **text evidence citation** skills.
- For differentiation, allow students to highlight claims in one color and menu evidence in another.
- For engagement, let students debate whether they would recommend the restaurant and why.
- For extension, have students write their own short customer review and challenge a partner to evaluate it using the menu.
