

Name _____

Smoothie Showdown Answer Key

1. Recipe A is clearer because the steps are fully written and specific.
2. Recipe A gives exact measurements such as one cup and one tablespoon.
3. Recipe A has better step order because it starts with washing the fruit before blending.
4. Recipe A is easier for a beginner because it explains each step more clearly.
5. Both recipes make the same smoothie. One difference is that only Recipe A lists exact measurements.

Teacher's Guide

- This worksheet develops **compare and contrast skills**, **text evidence use**, and **procedural comprehension** for Grades 5 to 7.
- For differentiation, allow some students to highlight evidence directly in the recipe text before answering.
- Increase engagement by holding a class vote on which recipe students would prefer to use and why.
- As an extension, have students rewrite Recipe B to match the clarity level of Recipe A using proper measurements and full steps.
