| 2. Morning work | 7. Science time |
| 3. Snack break | 8. Lunch |
| 4. Math class | 9. Pack up and dismissal |
| 5. Recess | 10. Science time |

Teacher's Guide

- **Skill Focus:** Students practice identifying sequence using **before** and **after** in a realistic daily schedule.
- **Differentiation:**
 - Read the schedule aloud for developing readers.
 - Cover part of the schedule and reveal one line at a time for students who need visual support.
 - Challenge advanced students to write their own schedule and create new questions.
- **Engagement Tips:**
 - Act out the schedule as a class and pause to ask what comes before or after each action.
 - Let students highlight or underline the key words **before** and **after** in each question.
- **Extension Ideas:**
 - Have students compare this schedule to their own school day.
 - Ask students to draw the schedule in order using simple pictures.
 - Turn the activity into a partner quiz where students ask each other new before and after questions.
