Grade 9 ChatGPT Activity - Seeing Bias and Perspective

Objective: Use ChatGPT to explore how language, tone, and evidence can reveal bias in written information. You'll learn to ask critical questions, analyze different perspectives, and reflect on how bias shapes understanding.

Step 1 Choose a Short Text or Claim - Pick a short article, news paragraph, social media post, or opinion you've seen online. It can be about current events, technology, or social issues - something that clearly takes a position.

Examples: "Phones should be banned in schools." "Social media is making us less social." "Electric cars will solve climate change."

Write or summarize your chosen text here:

Step 2 Ask ChatGPT for a Summary - Ask ChatGPT:

"Please summarize this statement or paragraph in one or two sentences."

Write ChatGPT's summary below:

Now check - did ChatGPT's summary include any **opinion words** or **emotional language**? ☐ Yes ☐ No If yes, list them: _____

Step 3 Ask About the Author's Point of View - Ask ChatGPT:

"What opinion or point of view is being shown in this text?
What words or details show that opinion?"

Write ChatGPT's analysis here:

Name _____

Step 4 Ask About Possible Bias - Ask ChatGPT:

"Does this text show any bias? If so, what kind?
Is it biased by word choice, missing information, or emotion?"

Summarize ChatGPT's response:

Circle any that apply:

☐ Word choice ☐ Missing facts ☐ Emotion / tone ☐ None found

Step 5 Ask for an Alternate Perspective - Ask ChatGPT:

"How could this same topic be written from a different perspective or by someone who disagrees?"

Write a short version of the alternate viewpoint ChatGPT gives:

Step 6 Compare the Two Versions

How are the **original** and **alternate** versions different?
Think about tone, word choice, or focus.

1. _____
2. _____
3. _____
