Teacher's Guide

- **Skill focus:** Students practice sorting by **rhyming endings** and noticing when a word does not fit.
- **How to use:** Read all words aloud first. Then read the group labels (AT, UG, UN) and have students repeat them.
- **Differentiation:**
 - Support: Provide one word at a time and ask, "Does it sound like AT, UG, or UN?"
 - Challenge: Ask students to add one new rhyme word to each group (bat, hug, fun).
- **Engagement:** Let students "echo read" each group name before sorting to lock in the ending sound.
- **Extension:** Students pick one group and write a simple sentence using two words from that group.
