### Teacher's Guide

- **Skill focus:** Students choose the best rhyme and explain using **ending sounds**.
- **How to use:** Have students say the target word, then each choice, then decide and explain aloud.
- **Differentiation:**
  - Support: Give a sentence frame: "\_\_\_ and \_\_\_ rhyme because they both end with \_\_\_."
  - Challenge: Ask students to name one more rhyme for each target word after choosing.
- **Engagement:** Turn it into partner talk: one student chooses, the other checks by repeating the rhyme pair.
- **Extension:** Students write one new choice set for a classmate: one correct rhyme and two tricky non-rhymes.
