Teacher's Guide

- **Skill focus:** Students hear and match **rhyming ending sounds** while practicing simple cut and glue routines.
- **Set up:** Pre-cut pictures for students who need fine-motor support, or have them cut on the lines for extra practice.
- **Differentiation:**
 - Support: Say the base word and two choices aloud, then ask, "Which one sounds the same at the end?"
 - Challenge: After gluing, students say the rhyme pair and add one more rhyme (cat, hat, bat).
- **Engagement:** Use "rhyme check" before gluing: students tap once if the pair rhymes, keep hands still if it does not.
- **Extension:** Students draw one extra picture that rhymes with any base word and label it with help.
