

Name _____

Root Relationship Builder

Directions: Use your knowledge of **roots** to complete each analogy. Think about what the first pair of words means and find the correct word or meaning that completes the second pair. Write your answer on the line.

1. bio : life :: geo : _____
2. aqua : water :: therm : _____
3. micro : small :: macro : _____
4. tele : far :: phono : _____
5. chron : time :: graph : _____
6. spect : see :: aud : _____
7. struct : build :: rupt : _____
8. scrib : write :: dict : _____
9. terr : earth :: sol : _____
10. port : carry :: mit : _____

Bonus Challenge: Create your own two root analogies! Use any roots you've learned and test your classmates to see if they can solve them.
