### Teacher's Guide

- Review the rounding rule by identifying the target digit and checking the digit to its right.
- Encourage students to underline the place value they are rounding to before solving.
- Provide a place value chart for students who need extra support.
- Challenge advanced students to explain why each number rounded up or down.
- Have partners compare answers and explain their reasoning aloud.
- Extend learning by asking students to create three numbers for a classmate to round to different place values.
