3. C
4. C
5. B
6. C
7. C
8. B
9. A
10. B
11. C
12. C

Teacher's Guide

- Review the place value named in each question before students begin.
- Encourage students to identify the digit to be rounded and the digit to its right before looking at the answer choices.
- Provide a place value chart or number line for students who need additional support.
- Have students explain why the incorrect choices are not reasonable answers.
- Let pairs compare answers and discuss any questions they answered differently.
- Extend the activity by having students write one multiple-choice rounding question with four answer choices for a classmate to solve.
