

Name _____

Benchmark Bounce Answer Key

1. 50
2. 200
3. 530
4. 600
5. 2,000
6. 900
7. 2,000
8. 320
9. 5,000
10. 960

Teacher's Guide

- Model the first problem by identifying the two benchmark numbers and locating the given number between them.
- Encourage students to decide which benchmark the number is closer to before writing the rounded answer.
- Provide partially completed number lines for students who need extra support.
- Have students explain why each number is closer to one benchmark than the other.
- Let pairs check each other's work by discussing the location of each number on the number line.
- Extend the activity by having students create their own number line and rounding problem for a classmate to solve.
