

Name _____

Target Practice Answer Key

1. 6
2. 12.4
3. 8.91
4. 5.727
5. 20
6. 3.8
7. 14.29
8. 0.583
9. 27
10. 9.2
11. 4.67
12. 10.205

Teacher's Guide

- Begin by reviewing the rule: look at the digit to the right of the target place before rounding.
- Encourage students to underline the place they are rounding to before solving each problem.
- Provide a place value chart for students who need extra support identifying decimal places.
- Challenge early finishers to write one decimal that rounds to each answer on the worksheet.
- Have students compare answers with a partner and explain one rounding decision aloud.
- Extend the lesson by asking students to create four new decimals for a classmate to round to different place values.
