

Name _____

Rounding Matches Answer Key

1. G
2. C
3. D
4. H
5. I
6. E
7. B
8. L
9. J
10. F
11. K
12. A

Teacher's Guide

- Review the place value given for each problem before students begin matching.
- Encourage students to round each number first, then look for the matching answer instead of guessing.
- Allow students to cross out matched answers to avoid using the same letter twice.
- Have partners compare matches and explain how they determined each rounded value.
- For students needing support, provide a place value chart or number line for selected problems.
- Extend the activity by asking students to create four new matching pairs using different multi-digit numbers and place values.
