

Name _____

Circle Strategy Answer Key

1. 46,000
2. 220,000
3. 600,000
4. 73,700
5. 841,000
6. 370,000
7. 124,600
8. 1,000,000
9. 67,950
10. 482,000
11. 730,000
12. 904,700

Teacher's Guide

- Model the first problem by circling the rounding digit and underlining the deciding digit before rounding.
- Encourage students to complete the circle and underline step before writing any answer.
- Provide a place value chart for students who need additional visual support.
- Have partners compare which digits they circled and underlined before checking the rounded numbers.
- Invite students to explain why each problem rounded up or down using the deciding digit as evidence.
- Extend the activity by having students create their own multi-digit numbers and exchange them with a partner for practice using the same strategy.
