

Name _____

Crowd Count Answer Key

1. 18,500
2. 27,900
3. 34,000
4. 47,000
5. 52,000
6. 60,000
7. 80,000
8. 90,000

Teacher's Guide

- Quick implementation: Review which digit students must check when rounding to the nearest hundred, thousand, or ten-thousand.
- Differentiation: Have students underline the rounding digit and circle the digit immediately to its right.
- Differentiation: Challenge students to complete all eight problems without place-value hints.
- Engagement: Ask students to imagine the numbers appearing on stadium scoreboards and quickly announce each rounded crowd count.
- Extension: Have students create three fictional attendance figures and round each to two different place values.
