

Name _____

Decimal Dash Answer Key

1. 3

7. 13.9

2. 7

8. 25.5

3. 13

9. 2.35

4. 28

10. 6.72

5. 4.4

11. 14.96

6. 7.9

12. 32.80

Teacher's Guide

- Quick implementation: Review decimal place values and remind students to check the digit immediately to the right of the rounding place.
- Differentiation: Have students underline the digit being rounded and circle the deciding digit before solving.
- Differentiation: Allow students who need support to use a decimal place-value chart.
- Engagement: Have students predict whether each decimal will round up or stay before calculating the rounded value.
- Extension: Ask students to choose three decimals and round each to two different place values, then compare the results.
