5. slip - trip
6. smell - fell
7. snow - glow
8. scan - plan

Teacher's Guide

- Begin by reviewing what a **rhyme** is and practicing a few oral examples before students begin the worksheet.
- Encourage students to say both words aloud slowly to hear the matching ending sounds.
- Provide extra support by covering the first letters and helping students focus only on the ending patterns when listening for rhymes.
- For extension, have students create a short list of new S-blend words and generate rhyming partners or write a two-line rhyme using at least one S-blend word.
