Teacher's Guide

- Before students begin, review each blend aloud and ask the class to brainstorm a few examples together.
- Encourage students to **say the blend aloud** as they write each word to reinforce the sound pattern.
- Provide extra support by offering picture cards or letting students reference classroom environmental print.
- For an extension, have students choose one triad they created and use all three words in a short sentence or mini-story, or challenge them to think of S-blend words not listed in the word bank.
