Teacher's Guide

- Review each S-blend aloud and have students identify the blend they hear at the beginning of the vocabulary words.
- Support developing readers by reading the definitions aloud and pausing to let students think before choosing a word.
- Give hints by emphasizing key words in the definitions such as seat, warm, or glide to help students connect meaning and vocabulary.
- For an extension, have students draw a quick picture for two of the words or create their own simple definitions using new S-blend vocabulary.
