Name _____

Paycheck Schedule Answer Key

1. $800.00
2. $2,000.00
3. $2,400.00
4. $5,500.00
5. $950.00
6. $2,450.00
7. $3,125.00
8. $7,650.00

Teacher's Guide

- Quick implementation: Review the four pay schedules and their number of annual pay periods before students begin.
- Differentiation: Let students highlight the schedule first, then write the matching number of pay periods beside each problem before dividing.
- Engagement: Ask students to compare two employees and identify who receives more money per paycheck before checking with calculations.
- Extension: Have students choose one annual salary and calculate the gross pay under all four pay schedules.
