## Sense Identification Answer Key

**Sight:** glowing, flickering

**Sound:** crunching, booming, rustling

**Smell:** musty, fragrant

**Taste:** zesty, peppery, sweet

**Touch:** gritty, silky, fizzy, damp, icy

### Teacher's Guide

- Review the concept of **sensory adjectives** and **sensory verbs** before students begin. Explain that each word connects to one of the five senses.
- Read the list together and ask students to visualize or act out a few words to ensure understanding.
- For differentiation, highlight or label the senses beforehand, provide a reduced word list, or allow students to work in pairs.
- For engagement, turn the matching into a timed challenge or let students create motions that represent certain words.
- For extension, have students write a short descriptive paragraph that uses at least one word from each sense category.
