

Name _____

Kite Story Sequence Answer Key

Sample Predictions (Acceptable Answers May Vary):

- Sofia might run to get her dad to help retrieve the kite.
- She might climb the tree carefully and untangle the string.
- A branch could snap, and the kite could fall back down on its own.

Key Teacher Notes:

- Predictions should make sense with the **story's context** (not random, like "a dragon eats the kite").
- Look for correct use of sequencing signal words (*then, after, finally*).
- Accept multiple answers as long as they follow logical story order and fit the problem given.
