## Park Day Sequence Answer Key

### Sample Story (One Possible Answer):

First, I packed a picnic basket with sandwiches and fruit. Next, my family and I walked to the park and spread out a blanket. Then we played a game of tag around the playground. After that, we ate lunch together under a big tree. Finally, we watched the sunset before heading home.

### Teacher Guide/Notes:

- Look for **logical event order** (no skipping around).
- Require at least **three sequencing words** from the Signal Word Bank.
- Accept different details as long as the story flows clearly from beginning to end.
- For the extra challenge, students should expand their story with a new “earlier” and “later” event, reinforcing flexibility in sequencing.
