4. E. Ella found a shiny new bicycle waiting on the porch.

Teacher Guide/Notes:

- Emphasize the use of **sequence signal clues** (Ella “woke up” = first action; “when she opened” = next action; “waiting outside” = discovery before riding).
- Encourage students to physically cut out the event cards, shuffle, and then place them in order for a tactile learning experience.
- The extra challenge personalizes sequencing practice, reinforcing transfer of skills from reading to real-life events.
